EDUCATION

Yeshwantrao Chavan College of Engineering

Nagpur, Maharashtra

B.Tech in Artificial intelligence and Data science CGPA: 8.62 (Till 5th sem)

2023 – Present

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python

Database: SQL

Tools & Technologies: Git, GitHub, VS Code, Streamlit, MySQL

EXPERIENCE

Internship:

Alexler, Nagpur – Excel/Data Analysis Intern

- Performed data analysis and reporting using Microsoft Excel
- Used Excel formulas, charts, and tables for data management

PROJECTS

Token Shield: AI-Powered Session Hijacking Detection and Automated Mitigation System (On Going)

- Developed an AI-Assisted Session Hijacking Detection System using Flask, SQLite, and JWT authentication for secure session management.
- Implemented machine learning (Isolation Forest) to detect anomalous user behavior and identify potential session hijacking attacks in real time.
- Built automatic session revocation and an admin monitoring dashboard to prevent unauthorized access and improve system security.

Mood Detector App (Python, NLP)

<https://github.com/Vedant065/Mood-Detector-app>

- Developed a sentiment analysis web app using Python, NLTK, and Streamlit.
- Predicted user mood in real time based on text input.
- Implemented text preprocessing and polarity score analysis for accurate sentiment classification.
- Designed a user-friendly interface to display mood results and sentiment scores clearly.

CERTIFICATION

- Fundamentals of OOPs (NPTEL)
